MILWAUKEE: Tuesday Morning, May 12. The Burdell Murder Case,

The telegraph brings the news that Mrs. Cux-RINGHAM, on trial in New York, during the past week for the murder of Dr. Bundell, has been acquitted; the jury being out only helf-an hour. ECERL, who was to have been tried on the cause indictment, has been discharged on his own recognizance, the District Attorney, no doubt, think-IPE a conviction impossible. The report of the trial and the details of the evidence in the New York papers fore-shadowed this result. The mystery of the murder remains as black and deep as over.

Iowa Election. We have at length the off cial result of the lows Election. The Democration candidates for Register of the Land Office and Superintendent of Public Instruction, are elected by about 500 majority, and the Repubacan Cardidate for Commissioner of the Des Moines Improvements by \$00 majority. The vote polled was 64,628, against 91,904 last fall. The Know Nothings and Sham Democracy voted together against the Republicans, and the best they could do was to make it a craw game. Last fail, Fremont had 45,181 against 45,728 for Buchanan and Fillmore. Such is the result over which the News and other Pro-Slavery organs have been cackling for a fortnight past, as an endorsement of the Dred Scott decision and a reversal of the verdict given by the People of Iswa, last fall. It is anything but that; but Sham Democracy, just now, is thankful for the smallest favors in the way of Election returns.

MICHIGAN ELECTION.—The Judicial Election in Michigan, as in Wisconsin, has resulted in an overwhelming Republican triumph. In 37 ccusties, officially returned, the Republicane carry all but five-their aggregate majority for Supreme Court Judges, being 11,966. Of the eight Circuit Judges elected all but oue are Republicans Well done for the Peninsular State!

THE MARKETS.-The New York market to Breadstuffs was firm yesterday, though scarcely so active as on Saturday. Prices continue to rate high in our market, and, as our comparative table shows, are now above last year's mark.

A Swift Witness for Sham Democracy The News of Sunday publishes and vouches

for a very remarkable epistolary effort from some body in Kausas to somebody else in this State both the somehodies being thorough believers in Sham Democracy and uttorly incredulous as to any good coming out of Black Republicanism. This correspondent reveals a plot on the part of the Black Republicans to make Kansas a Slave State, and sorrowfully concludes that it will prove successful. We extract a few paragraphs from the letter:

I have always written you that Kansas would certainly come into the Union a Free State, and it is with the greatest reluctance that I am fored to change my opinion. it is with the greatest reactions of the bound of the change my opinion.

The Republican part of the Free State party here (and they are four-fifths) are, of course, opned to the present administration at Washington, and are determined to keep up an exciteron, and elect a President in 1860, by my more most which

ment and elect a President in 1860, by nay means in their power, thir or foot, they care not which. With four legal free State votes to one Pro statevery vote, no Free State ticket will be notified tod. Our Free State Democrats have been talking to make a ticket; but we are so few in number that we despair, knowing that, if we do, every Republican wire-poller that goes to the polls, would vote a Pro-slavery ticket in priference to ours. ence to ours.

I tell you now, that the promises to make this a Free State, after it has once become a Sirve State, is all a humbug. I will assure you that the Pro Slavery party have amongst them quie as used made in constitutional matters as we have, and, they will make a toket of their have, and, they will make a toket of their most talented men in the Territory; and, my word for it, (if there is no opposing ticket, of parter changed front, already, on this question? word for it, (if there is no opposing ticket, of course they will be elected,) they will frame a Constitution that we cannot amend in a line; they can insert in that instrument, that it shall not be amended except by ninc-tenths of the notion in the State, or until the year 1990.

We pass by what this writer says shout the Black Republicane," since it is the morest and shallowcet fabrication. The Free State men coof Kansas: 2d, that none are allowed to vote at | was caused by something used in the cooking of boys Logislature afrecation and expressly designed to chast the Free State men : 2d, that forced of all Sines men are deliberately excluded from the Registry by the consens accounting the state of Kewashum, Washington county, was ideally and the Registry by the consens accounting the state of the state said election, but those who have conformed to the provisions of a Registry Law, passed by the

year 1962!" This is the democratic plot, not the sword is suspended by purple and gold but only for making, but for maintaining Kansas as lion, in imitation of rope. The handle is studa SLAVE STATE. It is no "Black Republican" in- ded with carbuncles and embeltshed with gold vention; but the positive averment of a Buchanan Democrat and vouched for by the News .-The slavery propagandists, having substantially disfranchised the Free State Electors in Kansas by their infamous Registry Law, and being back. ed up by the sympathy and support of the Feder al Government, intend to manage the approaching Convention in their own way; to frame Constitution establishing Slavery in Kausas; and to guard against the possibility of this black feature being expunged from the fundamental law, by providing that it shall not be altered, or amended except by nine-tenths of the voters the the State, or until the year 1900." This would in deed be the crowning and fitting finish to the series of infamous enactments and unparalleled Joans eld, of Mr. John Passage, living in the wrongs by which the Sham Democracy, step by step, has cast down every barrier which guarded Kanaas against the inroads of Slavery, and has delivered over that istrand fertile region-origin. ally set apart by solemn compact, as the home of FREE LABOR-into the hands of the Southern Slaveocracy. Such is the Democratic plotlet us watch its progress and development.

in the course of an elaborate justification of has also been soized, for implication in the busi-" Border Ruffianism" and its Federal adjuncts in Kansas, coolly asserts that the "Registry Law," passed by the late boy's Legislature in that Tercitory, "is precisely like that lately plead for by the Sentinel, for this city and county." Whenover the News speaks of Kansas it deals in fiction, as the above quoted statement proves. The Sentizel, so far from "pleading for" a Registry Law for this city and county, sarnestly and steadfastly opposed the measure—as the Money perfectly well knows, though it does not heritate the contrary.

THE MACHINE OF MACHINES .- " In the course of human events," it will undoubtedly, one of these days. become unucersary for mon to labor at all. We may expect to hear, some day before long, that some ingentous Yankee has invented a machine to do anything and everything! This is a great age for inventions and im provements, and when one would think that perfection had been reached in anything, he is sure to one some improvement which will make him laugh as his simplicity inventions of this ast age. Naturanta Gran, of Balti-more, is the inventor, and calls being "Tregular Catter." We have heard of this machine before, but as there are go, may be obtained a continuous adays, we rather districtly that we had heard; but now we have seen it in operation, we confess that all we had heard about to districtly and the street of the work we have seen in the street of the work of the shape of word work, and is capable of doing the work of fly men, with greater neutrons and precision than by any other means in use at the present day. We saw a ceanuful looking glass frame, of the most complicand weremenship, completed in therity minutes, which by the ordinary process (carring) would have taken one man at least a week! This machine may be used in the manufacture of tables, chairs, sofas, bedstonds, sashes doors, blinds, desks and in fact it way be used to great advantage in any and overy kind of carpenter, and cabthet work. He sangue: 5 is one of its most striking fea-tures; and median 5 can tears how to use it in ten min. nas. There are many of them in operation already to our chy, and anybody who takes any interest in such manders, will be fully repaid by spending a few adultes to see it work. One of them may be seen at anything in the establishment of Mosers. MARTIN & Eroze in the Fifth Ward, and also in the cabinet wanchouse of Mr. J. P. BIRCUAID, on West Water Street. Mr. Coar Isia this city at present, and he, or his agent, Mr. Hamilton, who my be seen at the liotel Wettricle, will be known to wall
